

OUR SCHOOL

Creative Montessori Academy guides the growth and development of the whole child. Montessori classrooms encourage investigation and creativity. This prepared Montessori environment is filled with beautiful hands-on learning materials which encourages students to grow in knowledge.

Creative Montessori Academy is proud to provide your child(ren) an opportunity for our outstanding Montessori education in a safe, nurturing environment. Both individual and group learning experiences are emphasized within the classroom using Montessori materials.

Maria Montessori said, "Play is a child's work." This Montessori principle believes that children learn by doing "purposeful work" which promotes focus on Respect for Self, Respect for Each Other, and Respect for the Classroom Environment. Therefore, classrooms become small communities. Each classroom has Montessori materials designed to fit individual children's needs to create meaningful learning experiences that maximize each child's ability.

We strive to teach children not just the right answer but how to ask the right questions.

AN EDUCATION FOR LIFE

Making decisions regarding your child's education is one of the most important responsibilities you have as a parent. The years between birth and age 12 are the most critical period of development for forming intelligence and social characteristics.

Take some time to reflect, ask questions about your child's education, and explore your options. Come meet with us, visit our school, and learn more about our programs.

We invite you to join the Montessori movement. **Enroll your child today!**

- After school latchkey - additional fee

"CMA is so much more than just a school. It's a place filled with caring, dedicated, teachers, hands-on administrative staff and children who care not only about each other, but also making our world a better place to live."

Michelle Mertic, CMA Parent

MONTESSORI WORKS

The Montessori approach to education is grounded in the belief that children have a dynamic inner desire to explore and learn about their environment. All children carry within themselves the person they will become. Developing their physical, intellectual, and spiritual potential to the fullest requires freedom – freedom achieved through order and self-discipline. A prepared and stimulating environment allows children to learn at their own pace, according to their own capabilities in a non-competitive atmosphere.

▶ **Montessori-educated children** generally actively seek knowledge, know where and how to look for information. They tend to approach learning by questioning, analyzing, comprehending, and discussing topics, rather than just memorizing or completing assignments.

APPLY TODAY

- We accept children ages 3-5 years of age.
- Want to learn more? To schedule a tour contact us at (734) 284.5600
