Medication Prescriber/Parent Authorization Form for Self-Administration/Self-Possession

Self-administration means that the student can administer the medication in a manner directed by the physician without additional direction or supervision by school staff. Self-possession means that under the direction of the physician, the student may carry medication on his/her person to allow for immediate and self-determined administration. For medication other than inhalers, only that day's supply of medication is to be carried. The school district recommends that spare medication, properly labeled in its original container, be kept in the clinic/office in case the student runs out or forgets the medication. The building administrator may discontinue the student's self-administration privilege upon advanced notice to the parent/guardian. **The student must carry a copy of this form at school.**
