

## CMA Quarantine Plan for 2021-2022

If my child is quarantined, what should I expect from SCHOOL?

- HOW WILL CONTACT BE MADE? Contact will be made with the parent by either the teacher or the main office with information and directions from the Wayne County Health Department (WCHD)
- WHO MADE THE DECISION? WCHD makes the decision to quarantine a child, classroom, or staff members

How will my child continue his/her learning while quarantined?

Each child is assigned a chromebook which they can take home and use to log into their classroom canvas site to engage in the work assigned to them by their teacher. If the class as a whole is quarantined, then virtual meetings will occur to help students move through the work they have. Teachers will be expected to connect with those quarantined at least twice a day (once in the morning and once in the afternoon). Students are expected to sign in and begin working with the assignments given by the teacher turned back in by the due date and time.

Will my child be counted absent?

If quarantined, and if the child signs into Canvas to work on assignments, the child will not be counted absent. A child will be counted absent only if they do not sign into the remote classroom nor complete work for that day.
